## Interests

### Gaming

Enjoying story-driven and strategy games while appreciating game design and user experience.

### Fitness & Strength Training

Maintaining discipline and a healthy lifestyle through regular workouts.

### Self-Development

Reading books and improving productivity, communication, and problem-solving skills.

### UI/UX Design

Creating intuitive, responsive, and visually appealing user interfaces.

### Learning New Technologies

Continuously exploring modern frameworks, tools, and software architecture.

### Web Development

Building modern, scalable, and user-focused web applications.

## Mohamad Mahdi Tasha

### Front End Developer

Front-end developer with 5+ years of experience building modern, responsive web applications using React, Next.js, and TypeScript. Focused on clean architecture, polished UX, and shipping products that solve real problems - from booking platforms and internal finance systems to developer tools and productivity apps. Currently open for freelance and contract work.

## Education

### ● Bachelor's Degree — Computer Engineering (planned)

Oct. 2026 [Islamic Azad University, South Tehran Branch](#) Tehran, TE, Iran

### ● Associate Degree — Computer Engineering

Oct. 2024 [Islamic Azad University, Islamshahr Branch](#) Tehran, TE, Iran

Currently completing an Associate Degree in Computer Engineering, covering core programming, algorithms, and software fundamentals — building the technical foundation that supports my hands-on front-end development work.

### ● High School Diploma — Experimental Sciences

From Sept. 2021 to Jun. 2024 [Shahid Mojtahedi](#) Tehran, TE, Iran

Completed a diploma in Experimental Sciences (pre-medical track), with a curriculum centered on biology, chemistry, and human anatomy/physiology. While the direct academic focus differed from software development, the analytical and problem-solving discipline built through this track carried directly into my self-directed transition into front-end development.

## Work experience

### ● Front-End Developer (Contract)

Since 2025 [Sevin Team](#) Remote

Working on a contract basis with Sevin Team, building and maintaining internal tools — including a complete finance and contract-management system — alongside other client-facing platforms.

### ● Freelance Front-End Developer

Since Oct. 2020 [Freelancing](#) Remote

Independently designing and building web applications for clients across e-commerce, travel, and finance sectors — from booking platforms to internal business tools.

## Skills - Languages

### HTML5

Semantic, accessible, SEO-friendly markup following modern web standards.

### CSS3

Responsive layouts, Flexbox, Grid, animations, and maintainable styling architectures.

### JavaScript (ES6+)

Strong understanding of modern JavaScript, asynchronous programming, DOM APIs, and browser fundamentals.

### TypeScript

Building scalable applications with advanced typing, generics, utility types, and type-safe APIs.

## Skills - Frameworks

### Next.js

App Router, Server Components, SSR, SSG, API Routes, Metadata, and production-ready applications.

### React.js

Component architecture, Hooks, Context API, custom hooks, performance optimization, and reusable UI development.

## Skills - Styling

### Shadcn

### Sass

### Tailwind CSS

Rapid UI development using utility-first architecture with responsive and maintainable design systems.

## Skills - Tools

### Git & GitHub

Version control, branching strategies, pull requests, collaboration, and code review workflows.

## Skills - General

### UI/UX Implementation from Figma

### Authentication (JWT)

### Debugging & Problem Solving

### Code Review

### Time Management

### Problem Solving

### Team Collaboration

### SEO Best Practices

### Accessibility (WCAG Basics)

### Cross-Browser Compatibility

## Skills - General

### Performance Optimization

### Clean Code Principles

## Projects

### ● Relog

2026 [Open Source Project](#) Remote

AI-powered tool generating clean, categorized release notes from any public GitHub repo's commit history.

### ● Safarnameh24

Since 2025 [Sevin Team](#) Remote

Built the hotel and flight booking flow for a travel agency, covering search, comparison, and instant checkout.

### ● Zarvantrip

2025 [Sevin Team](#) Remote

Built the hotel search-and-book flow for an Iranian travel platform, turning a multi-step booking into minutes.

### ● Finance System for Sevin Team

2025 [Sevin Team](#) Remote

Internal finance system tracking contracts and per-developer revenue splits for transparent, auditable payouts.

### ● Connect

2025 [Freelancing](#) Remote

Built both the consumer PWA super-app and its admin dashboard for centralized task tracking and real-time analytics.
